List of Marine Fish Species of NC - 747of 'em!

This was provided by Dan Cooney. Fascinating list of species of marine fishing known to occur in NC inshore and offshore waters.

Of interest, 18 species in the drum family and 20 species in the left-eyed flounder family

Maybe something to check out on a cold dreary winter's day.

Boating Safety Tip

Think most boats should have a swim platform, but if swim platform/ladder not available nice tip to recover a man (person) overboard. (MOB.).

Another option for MOB, is to turn motor off, have MOB stand on the ventilation plate and trim motor up. Perhaps better for a smaller, more fit MOB.

Very cool, quick and easy trick to save your back while saving a life.

Having spent my entire life on the river I've never seen this wonderful important safety trick....I hoisted many people out of the water and killed my back ,but this is special..hope this helps someone someday!

RSWSFC King Mackerel Tournament

The 2021 KMT was once again affected by weather pushing the tournament date out until the first weekend of December date after the planned July 7-8 cancellation due to small craft warning. Because of this, tournament participation was deeply affected, however, we did see 6 boats weighing fish and paid out over \$11k in prizes.

The fish that were weighed in were big, with 7 of the 11 fish coming in over 40lbs and the big fish of the tournament weighing in at a whopping 57.15 lbs on the *Windy Conditions*.

1st Place—Matt Pierce and crew on the *Surf & Turf*—91.95lbs \$2,034

2nd Place—Henry Tillet and crew on *Windy Conditions* - 91.5lbs \$6,753 (won High Stakes TWT)

3rd Place—Glen Krofchick and crew on *Reel ‘em Up/Little John*—83.85lbs \$1,168

4th Place—Chris Wilkins and crew on *Sea Dub* - 83.45lbs \$550

5th Place—Charles Dew and crew on *Reel Pleasure* 65.45lbs \$337

6th Place—John Parks and crew on *Team Animal House* 21.8lbs* \$306

* Only weighed one fish

Club Website Improvements — from Tripp Adams:

With the help from Tom Zemonek and Janson Fant, the club has a new website. We launched the new RSWSC website in November of 2020.

Built on a different platform from the old site, the club site now has a more updated and professional look/feel. You will notice many of the tabs from the original site are the similar, with only a few key differences. Users will experience much faster load times and, a webpage made to fit mobile devices.

One key addition to the new website is the 'Meetings and Outings' tab. <https://www.rswsc.org/meetings-and-outings>

As the outings calendar is planned and updated, events will be added to the page. We also plan to have virtual club meetings in 2021, which will have meeting information listed. As the club grows into the new site, there is functionality to manage event registration, and event specific communication. These are transitions from our current procedures and will be adopted over time.

The other new feature is the 'Forum' tab. <https://rswsc.org/forum> visitors to the website will have to make an account to access the information. The idea behind the forum is that, this will be a great way for members to interact with each other, especially during these quarantine times. Several message board topics have already been created in the forum; members can post pictures, experiences with guide services, baits/tactics, etc. This will also be a great way for members to meet other club member who have experience in their area of the coast.

As we continue to grow into the new website, you may notice changes along the way. While much of the site was built before it was published, there are always new features that can be added or adjusted. in the long term the site should be able to handle club communication for both emails and social media postings. Some of this will be a "learn as we go" process so, bear with us.

We are open to feedback on the new website. Please do not hesitate to reach out to me with questions, suggestions, and/or recommendations. Email me at tripp.adams@field2base.com
